# Talha Ahmad

**Phone:** +92 331 4650460 | **Email:** talha.ahmad.tech@gmail.com | **LinkedIn:** www.linkedin.com/in/talha-ahmad-tech | **GitHub:** https://github.com/TalhaAhmad-Codes

## EXPERIENCE

***DecodeLabs*** May 2026
*Internship* Remote

- Learned fundamentals of full stack web development through vanilla JS and its frameworks.

***AxioneTech*** July 2025 – September 2025
*Internship* Onsite

- Learned to design **RESTful APIs** and participated in debugging and maintenance.
- Learned about **architectural patterns**, **SOLID principles**, and **clean code practices**.

## PROJECTS

### Talent Flow

- Participated in **debugging** and **added up to 30 API endpoints**.
- Created a script to seed the database with **195 countries *including country codes and cities***, avoiding manual data entry and saving a lot of time.

### Smart Academic Communication Platform - Final Year Project

- Leading a team of 3 developers for making **a smart and automated communication platform for academic institutions** to solve a major communication mismanagement problem among students and faculty members.
- Working on **campaigns, templates, email classification and prioritization and automation rule engine systems** to automate targeted and personalized communication among students and faculty members.
- Implementing **Vertical Slice Architecture and Agile** to build core features faster, support parallel development, instant feedback, and better team coordination.

### Punjab Computer

- Creating **a desktop application for my father's business** with features like inventory management, sales and purchases, and repair jobs management.
- Using **Vertical Slice Architecture (VSA)** for better maintainability and code organization, light-weight database, and **modern UI design**.

### Blogora

- Created the **backend system of a simple blogging web application** where users can post blogs and interact with them.
- Migrated the application and database to the **production environment using Railway**.
- Implemented **minimal APIs to reduce development time and to focus on core features implementation**.

## EDUCATION

***University of the Punjab, Lahore*** October 2023 – June 2027
*Bachelor of Science in Computer Science* (BSCS) Lahore, Pakistan

- **Coursework:** Programming Fundamentals, Object Oriented Programming, Web Application Development, Enterprise Application Development, Artificial Intelligence, Computer Networks, Parallel and Distributed Computing, Data Structure and Algorithms, Software Engineering.

## SKILLS

**Languages:** C#, Python, JavaScript, TypeScript, HTML/CSS, SQL (MS SQL Server, PostgreSQL, MySQL, SQLite), NoSQL (MongoDB).
**Frameworks and Libraries:** .NET (WPF and Winforms), ASP.NET Core and MVC, Entity Framework Core (ORM), MediatR (CQRS), React, Node.js, Express.js, Bootstrap, Tailwind CSS.
**Tools and Technologies:** VS Code, Visual Studio, JetBrains Rider, Git, GitHub, Docker, Railway, Swagger, Scalar. Postman.
